## Description :

A glamorous celebration of urban life and fine craftsmanship in true art deco fashion, the «Persia» side cabinet is a one of one piece that follows early 20th century lifestyle principles of quality and exoticism through its use of artisanally fumed eucalyptus wood and a bespoke bidirectional sliding doors pulley that add to the timeless angular structure of the piece, while the door panels re-interpret the historic and opulent architectural visual element of marble surface inlay by using precious onyxes, marbles, and brass enamel in a contemporary design that shies away from traditional aesthetics while offering perennial appeal.

Handmade in Italy.

## Composition

Eucalyptus wood, guatemala verde marble, breccia marble, green onyx, brass enamel

## Dimension

204 x 79 x 42 cm
